

The Paducah Sun

VOLUME VIII—NUMBER 20

PADUCAH, KY., TUESDAY EVENING, JULY 23, 1901

10 CENTS PER WEEK.

WE STILL LEAD.

Yesterday The Maximum Was 111 in The Shade--A Few Prostrations.

The heat is unrelenting. Yesterday at 2 o'clock Observer Bornemann's thermometer went to 109, as told in yesterday's paper. Shortly after 4 o'clock it went to 111.

This morning the minimum was 80, two degrees warmer than the lowest yesterday morning. Later in the morning, however, the heat was not so great as at the same hour yesterday, and there was hope of some relief.

One good thing about the hot weather, however, if there is anything "good" about it, is that there are few mosquitoes. It is feared that the first rain will bring swarms of them, and local physicians claim that there is a probability of much sickness when the drouth is once broken, but the multitude seems willing to risk it all for a little wet weather and cooler atmosphere.

The following prostrations from heat are reported: Miss Myra Thibault, yesterday afternoon late, light attack; Mrs. L. B. Ogilvie and Mrs. Dr.

Wash Smith, of Broadway, yesterday. The prostrations are not of a serious nature.

Mr. H. L. Cook, while at work on some new houses of Mr. Richard Holland on Trimble street, was overcome by heat this morning about 11 o'clock and is in a dangerous condition. He resides at 1206 Bernheim avenue, and Dr. Reddick attended him.

Mr. J. V. How, the well known mill man, was prostrated yesterday afternoon but is slightly improved today.

Mr. Mel Lloyd, the well known contractor, was prostrated from heat yesterday afternoon but is better today.

Langstaff Ordn Mfg Co. shut down their mill for the day this afternoon at 2:30 o'clock on account of the extreme heat.

Engineer Joe Flach, of the Bettina town, was overcome by heat yesterday and today is quite ill.

This afternoon the temperature as reported by Observer Bornemann was 111, and will doubtless go higher this afternoon.

BLOOD FLOWED

Kentucky Continues to Furnish a Few Killings These Hot Days.

THE POWERS CASE AGAIN

Frank Nickell Assassinated Near Morehead—Shot From Ambush Last Night.

JUDGE GOODNIGHT STILL ALIVE.

KILLED HIS NEPHEW.

Winchester, July 23.—George Hines shot and killed his nephew, James Brown, in a fight here today, but was himself fatally stabbed. A bystander was badly hurt. An old grudge caused the fight.

PISTOL DUEL BE-

TWEEN FARMERS.

Vanceburg, July 23.—William Johnson and James Scott, farmers, had a pistol duel at their homes near here today and both were fatally wounded. An old quarrel renewed precipitated the trouble.

SHOT FROM AMBUSH.

Morehead, Ky., July 23.—Frank Nickell, a well known man, was shot from ambush and killed last night. His body was found this morning but there is no clue to the assassin.

THE POWERS CASE.

Frankfort, July 23.—The mandate in the Powers case was sent from Frankfort to Georgetown this morning and the case may be tried this fall.

JUDGE GOOD.

NIGHT'S CONDITION.

Franklin, July 23.—There is no change in the condition of Judge Goodnight. He is under the influence of opiates and is believed to be slowly sinking. He cannot last much longer.

REPORTERS BARRED.

THEY ARE NOT PERMITTED TO TAKE EVIDENCE IN THE FOSBURGH TRIAL.

Pittsfield, Mass., July 23.—The Foshburgh trial continues to attract a great deal of attention and today reporters were barred from the courtroom. Robert Foshburgh is charged with killing his sister, May, last August. It was given out at the time that she was killed by burglars but the police theory is that the father and son had a quarrel and when the daughter stepped in to prevent trouble she was killed accidentally.

GREAT OVATION.

LONDON PREPARING TO RECEIVE LORD MILNER.

London, July 23.—A great ovation is in waiting for Lord Milner, who will today return from South Africa. All London will be decorated for the occasion and the largest crowd for months will be present to greet him.

TYPHOID GERMS.

HEALTH OFFICER SAYS THE WATER IS UNFIT FOR DRINKING PURPOSES.

Lexington, Ky., July 23.—Health Officer Healy here has reported to Dr. F. O. Young, president of the board of health, that the water in the reservoir from which the city receives its water supply is contaminated and not fit for drinking purposes. Dr. Healy says the water contains germs of typhoid fever.

TO ORGANIZE.

SECRETARY OF THE POPULIST COMMITTEE EXPECTED THIS WEEK.

Secretary J. G. Johnson, of the state Populist executive committee, is expected one day this week to take what action is deemed advisable by the Populists of this county to organize and put out a county ticket for November. It has been said that the Populists would not have a ticket in McCracken, but the leaders say that such a statement is unauthorized, and that while it has not been definitely decided, it is probable that the ticket will be put out in due time.

Wanted—A lady cashier in a retail store on Broadway. Address D, care of this office.

MRS. H. H. STEVENS

A Well Known Lady Succumbs After A Long Illness—Many Friends Here.

DEATH FROM PARALYSIS.

She Was Born Here And Had Resided In Paducah In Many Years.

NO FUNERAL ARRANGEMENTS MADE.

Mrs. H. H. Stevens, one of the oldest residents of the city and one of the foremost church workers, died at the home of her son, Mr. James H. Leigh, on South Eleventh, near Tennessee street, this morning at 2 o'clock, after an illness from paralysis extending through the past eight years. Several months ago she broke a limb and this hastened the end.

She had recently been critically ill, but until a day or two ago was thought to be improving.

She was born in Paducah on April 13, 1838 and was 63 years of age at her death. She leaves two sons, Messrs. Ernest Stevens, of Paris, Ky., and Mr. James H. Leigh, of this city, with whom she has been residing, and two daughters, Mrs. Eva Murray, of Louisville, a brother, Mr. J. H. Long, of Hinson Springs, Tenn., and two step-children, Mrs. Tom Farmer, of Martin, Tenn., and Miss J. D. Ladd, of Cairo.

Mrs. Stevens was married to Mr. V. G. Leigh in 1860 and to her late husband Mr. H. H. Stevens, in 1878. She had been a resident of Paducah the greater part of her life and was a most diligent church worker and was beloved by all her acquaintances. She was the daughter of Col. J. H. Long, one of Paducah's most respected residents, and had been a member of the First Baptist church since her early youth.

There have been no funeral arrangements made yet but the time will be fixed upon the arrival of her son from Paris, and her step-children.

LEAVES TOMORROW.

BOYS GO TO THE REFORM SCHOOL AT LAST.

Deputy Sheriff Uterback this morning received a telegram from Supt. Doaks, of the state reform school at Lexington, stating that the negro boys, Harry Sanders and Sydney Greer, would be received there, and Deputy Uterback, accompanied by Justice R. J. Barlow, leaves tonight for Lexington with the youthful prisoners, who have been in jail for several months on a charge of house-breaking.

BIDS OPENED.

J. E. WILLIAMSON WILL BE AWARDED THE CONTRACT FOR THE CUSTOM HOUSE WORK.

Inspector Holmes yesterday afternoon opened bids for the proposed wall on the north side of the custom house and the driveway about the building and minor improvements at the government building, and Captain J. E. Williamson will be awarded the contract for the work.

Bids were opened several weeks ago, but they were all too high, the lowest being \$3,700, and the department at Washington reviewed the specifications and asked for new bids. These were opened yesterday and were as follows: Pat Halloran, \$2,500; E. W. Katterjohn, \$2,400; J. E. Williamson, \$2,100.

Work will begin as soon as the papers are sent to Washington and signed up and the contractor notified to proceed.

DEATH FROM TYPHOID.

A RESIDENT OF LOVELACEVILLE DIES AFTER A LONG ILLNESS.

Mrs. Ellen Smith, after a long illness, died yesterday afternoon at her home near Lovelaceville from typhoid fever, aged 49. She had been a resident of that section for many years and leaves a family. The remains were buried at the Sharon graveyard.

COACHES BURNED

A Costly Wreck on The Illinois Central, But No One Hurt.

PICNIC ON AUGUST 6TH.

Arrangements Are Being Made By The Boys for a Pleasant Outing—Committees Appointed.

MATTERS IN RAILROAD CIRCLES.

There was a wreck on the Evansville district of the Illinois Central yesterday morning at 11:15 that cost the company many thousands of dollars. No one was hurt however. A special train of eight passenger coaches, nine coaches and one baggage car, pulled by engine No. 257 was wrecked about one mile and a half north of Grove Center and the entire train of coaches turned over. Six coaches were badly damaged. The cause of the accident was a broken track on coach No. 355. The train was in charge of Conductor V. H. Everett and Engineer A. Konzenin and was running at a slow rate of speed when the accident happened. The coaches caught fire from a fire on the right of way and the loss will amount into the thousands.

Mr. Tom Connell, of the tramway, reports that his department has gone to Louisville on a short vacation.

Master Mechanic Baston is on the Evansville district today on business.

The date for the Illinois Central employees' picnic has been set for August 6 and all the preparations excepting the arrangements of the grounds have been made. The following are the committees who have charge of the picnic: Music, A. M. Dustin, Barney Cleary, F. Gardner, amusements, Emil Preuss, E. G. Berry, Ira Landrum, John McCane, Andy Reitz, Ed Wheeler, printing, M. M. Hewitt, George Sandman, V. M. Rogers, refreshments, A. M. Dustin, Theobald, —Gohagen, finance, M. M. Hewitt, Geo. Bontrant, J. C. Martin, grounds, James Martin, John Schroeder and Sam Bingham. The latter committee will make a trip to the grounds probably tomorrow to inspect and see what is necessary to be done.

A dancing pavilion, costing about \$75, will be built and it will be much larger than the one on the grounds last summer. No brass band but a good orchestra will be taken along and the lovers of the dance can enjoy themselves to their hearts' content.

Last year fourteen cars were taken out and the committees have asked for that many this year.

Mr. Chas. Harton, shipping clerk in the Illinois Central store room here returned to work this morning. He was severely burned Sunday in extinguishing the fire of Miss Meggie Williams, caught by the explosion of a lamp. His injured hand will not be fit for use for quite a while but he is able to be on duty.

So far there has been no permanent appointment of a round house foreman but Mr. C. D. Vineyard formerly round house foreman at the Fulton yards, is favorably mentioned for the place.

Inspector Holmes yesterday afternoon opened bids for the proposed wall on the north side of the custom house and the driveway about the building and minor improvements at the government building, and Captain J. E. Williamson will be awarded the contract for the work.

Bids were opened several weeks ago, but they were all too high, the lowest being \$3,700, and the department at Washington reviewed the specifications and asked for new bids. These were opened yesterday and were as follows: Pat Halloran, \$2,500; E. W. Katterjohn, \$2,400; J. E. Williamson, \$2,100.

DEATH FROM TYPHOID.

A RESIDENT OF LOVELACEVILLE DIES AFTER A LONG ILLNESS.

Mrs. Ellen Smith, after a long illness, died yesterday afternoon at her home near Lovelaceville from typhoid fever, aged 49. She had been a resident of that section for many years and leaves a family. The remains were buried at the Sharon graveyard.

THEY AGREE

The Deadlock Broken And Ministers Finally Settle On A Plan.

FOR THE INDEMNITY.

China Will Pay 23,000,000 Taels Annually, Lifting Her Load By 1904.

SINKING FUND TO BE CREATED.

Washington, July 23.—The state department has received a dispatch from Consul Hookhill at Peking announcing that a plan for the payment of the indemnity to the powers by the Chinese government finally had been adopted. The authorization of the bonds to be issued will begin in 1902 and the plan contemplates the entire liquidation of both principal and interest by 1904. It is expected that this sum is to be used to pay the interest on the bonds and to form a sinking fund for the ultimate liquidation of the principal.

The principal of the payment of the indemnity having been determined upon, what remains now is to devise a plan for its execution. This is not regarded as a serious problem. The bonds guaranteeing the indemnity are to be distributed among the various powers on the basis agreed upon heretofore. There will be no international guarantee, but it is said that the governments to whom the bonds are allotted will see to it that the purchasers will be safe in their investments. State department officers approached no trouble upon the part of the various governments in disposing of these securities.

ON A BARGE.

THE FIGHT WILL TAKE PLACE ON THE RIVER ON A BARGE.

The Lou Hellard and "Alabama Kid" bout which was billed to come off last night and which was postponed on account of the interference of the authorities will be pulled off either tonight or tomorrow night on the river. The City of Gloucester and barge will be chartered for the evening and the fight will take place aboard the barge in midstream. This is the only way the bout can be pulled off without the interference of the law. Both men are in the very best of condition and the fight promises to be something out of the ordinary. Nothing definite relative to the challenge of Prof. J. E. Mize to either of the fighters has been arranged but it is probable that Hellard and Mize will meet in a glove contest.

NO CONTRACT AWARDED.

MR. ABRAHAM WEIL APPOINTED TO GO TO LOUISVILLE FOR FUNDS.

The directors of the Masonic and Odd Fellows building met again yesterday afternoon and decided that as the new building will cost more than at first anticipated, more funds are necessary. Mr. Abraham Weil was appointed a committee to go to Louisville today and arrange for additional funds, and he will meet the directors again Thursday, when it is probable the contract will be let.

SISTER KILLED.

GIRL SHOTS AT BURGESS AND KILLS HER SISTER.

Manitou Springs, Ark., July 23.—Pearl Bylman was shot by her sister and killed. Her sister is 16 years old and defected a burglar in the act of getting into the house and fired at him, striking her sister through mistake.

NO CHANGE.

The Pennsylvania Strike Situation is Without New Developments.

Pittsburg, Pa., July 23.—The strike situation today is practically the same as on yesterday. Wellville and McKeesport being the points around which the interest centers, and any new development will, no doubt, emanate from these places. The rumored accession to the force of the men to the Wellville plant has not taken place, and twenty-three loyal men who have stuck to the company went to work this morning as usual.

At McKeesport everything is black. The Dewees Wood company did not make any attempt to go into operation, as was expected. Rumors of great moment were rife and unusual excitement manifested itself. It was stated yesterday that the company would bring in new men and the strikers were watching every ingress to the city. Hundreds of men were parading the streets, watching the railroads and even watching the river bank because it was said men would be brought in by boat up the Monaca-hela river but they did not come.

When seen, President Shaffer was in a good humor. He had recovered from his slight indisposition and was at his desk at an early hour. He would not discuss the plans for this week. Much depended on circumstances. The general plans of the Amalgamated Association were of course laid out and would be followed to the letter. There are some startling surprises in store for the manufacturers when the proper time comes for springing them, he says. "Our people," said he, "have been saving and have fortified themselves against such an emergency for three years. At present we are simply taking our much needed vacation. When the cooler weather arrives we will be in shape to settle down for the winter, undisturbed by the conditions confronting us, for we have everything in readiness for just such a winter as will result if this strike is not settled."

—Mr. Wm. Falls has arrived from Evansville to take a position at Jackson's foundry.
—Son's for prescriptions. 12tf
—Mr. Gilbert Bailey has accepted a position as assistant bookkeeper at B. Weiler's.
—Pure drugs carefully compounded. 12tf
—The children of Mr. Needham Allen, of the county, had a pleasant reunion Sunday.
—Mr. Frank G. Harlan, Jr., the well known plunderer, is now in Enid, O. T., and stands an excellent chance of being chosen superintendent of the city water plant there.
—Mr. Ed. Ballowe, a sawyer at the Langstaff-Orin Mfg. Co., received a painful scalp wound in an accident. Dr. Robertson dressed the injury.
—Quite a delightful dance was given in Metropolis last night in honor of Miss Edith Hillbreth who is the charming guest of Mrs. Hal Evans.
—One of the Paducah Brewery wagons broke down this morning about 11 o'clock in front of the Campbell building. There were two kegs of beer in the wagon and the thirty patrons of the bar where the beer had been consigned had to wait some time before their thirst could be assuaged.
—The Metropolis Herald reports that a Paducah colored baseball team played a game with a Metropolis team Sunday hot the Metropolis club made so many runs no one undertook to keep count of them.
—Mr. Al Foreman is out again after a brief illness.

FERRY FOR METROPOLIS.

Mr. Wm. Chesterfield, of the city, has made the business men of Metropolis a proposition to put in a ferryboat at that place to run between Metropolis, La. Joyce, Hillman and the Kentucky shore. The matter will probably not be decided until the first of next month. A bonus of \$700 has been pledged Mr. Chesterfield.

NOTICE SIR K. MACCABEES.

All Sir Ks are requested to be present tonight, as we elect our commander. Fraternally,
JAMES WEILER, R. K.

WANTED—An expert body stenciler and typewriter. None other need apply. Address, with references, X Y, Z, care of this paper. 32 o 3

ENJOYABLE HAY RIDE.

Mrs. Jesse Carl gave a delightful hay ride to Maxon Mills last evening in honor of Miss Lucy Carl, of Mayfield. The wagon broke down on the way back and some little delay was occasioned by the accident. Dancing was enjoyed and the crowd returned early in the morning. The weather although hot, was not felt and several of the young ladies had to borrow the boys' coats on the return trip home.

For indignation there is nothing that equals Winstead's Laxative Phosphate.

MARRIED LAST EVENING.

P. J. Brown, age 37, of the city and Alvin Elinum Hall, age 17, of the city, were licensed to wed yesterday afternoon. The groom is a carpenter and has been married once before.

Winstead's Laxative Phosphate cures that tired feeling. At all drug stores.

TO ENJOY AN OUTING.

Messrs. Geo. M. Tagg, Andrew Mercer, R. E. McCarty, James Wilson and other railroad men have today for Bayon Mills to fish and until Saturday.

BIRTHS.

Born to the wife of Mr. James Utterback last night a fine boy.

FOR RENT—A five room house, three porches and good cistern. Apply to 621 Hubbard street.

SERVICE AT RESCUE MISSION.

Rev. Mrs. A. E. Hall, the Illinois mission evangelist from Henderson, Ky., has arrived and will preach tonight at the Rescue Mission on the Third street, and will remain several days. Everybody cordially invited to attend these meetings every evening at 7:45 o'clock.

THE LA BELLE PARK THEATRE.
A Kentucky Romance was presented by the La Belle Park Stock company very creditably last night. The play is strong and the situations pleasing. Mr. Beaumont Claxton's conception of the French role is perfect and his playing is very pleasing. Mr. Ellis Wright in the role of "Senator Clay" is also well interpreted and up to his usual standard of acting. All the members of the company are well up in their parts and the show is one of the best presented so far. Thursday night the bill will be changed to "The World of Honor" and will no doubt be largely attended.

About People
Social Notes.

Mr. Glenn Smith, of Edgelyville, was in the city today.
Mr. Sam C. Mollor, of Kuttawa, was in the city today.
Mr. H. V. Lillard, of Dallas, Tex., is at the Palmer.

Mrs. Lucy Lenders accompanied by her daughter and Miss Maudie Anderson are spending the week at Carleton Springs.
Secretary Escott, of the Y. M. C. A., and wife returned from Gibson Wells, Tenn., this afternoon after a visit of about ten days.

SOCIAL NOTES.

The Cotton club will give a dance at the La Belle park pavilion tomorrow evening. It is hoped that the announcement will cause the thermometer to be so accurate that it will "drop."

VEST FOUND.

Mr. Gus Lockwood lost his vest and watch from the seat of his buggy several days ago, and this morning a farmer who had seen a notice of it in the papers brought it in. It was picked up in the road and kept until the owner was learned.

WILL MARRY TODAY.

Thomas Wilson, age 22, of the city and Jennie Crogen, age 21, of the city were licensed to wed this afternoon.

THE FAIR OF ISRAEL.

Capt. Lou Kell arrived from his farm near Danville, Tenn., this morning. His wife accompanied him and they will spend two or three weeks here with Capt. Kell's mother.

THE FAIR OF ISRAEL.

The fair of Israel, known as the "Fair of Death," may be seen in the presence of Venice among other decorative weapons. It seems to be a very large key, but it is really a death-dealing instrument, and was invented by Thibault, who was disappointed in love, and was intended for the destruction of his rival. This key is so constructed that the handle can be turned around, revealing a small spring. If this spring is pressed, a very fine but poisonous needle is driven from the other end of the key with considerable force, and after it has pierced the flesh the wound closes immediately, leaving an almost imperceptible mark, and death soon follows.

THE FAIR OF ISRAEL.

NEW BOAT.
MR. J. L. KILGORE'S BEAUTIFUL CRAFT NEARING COMPLETION

She Will be One of The Fastest and Finest Boats on the River When Completed.

Yesterday afternoon a boat reporter made a trip to Mechanicsburg to look at the much talked of new boat being built for J. L. Kilgore, proprietor of the heading factory and it is getting a mild to say that the boat is the prettiest and most symmetrical piece of marine architecture ever looked at. The hull was built by Jas. McCarthy, the well known skillful shiprafter, and boat builder. It has a beautiful and graceful model, pretty sheer, has a four foot hold, 20 foot beam, 23 1/2 feet over all length 115 feet. Her cabin is being built by Messrs. A. W. and M. A. Vance of Cincinnati, who built the cabin of the Island Queen, and they will build a very handsome cabin for the Island Queen, which is to be the name of this handsome craft. Mr. Kilgore has taken special interest in the machinery of his boat having had years of experience with steamboats, he will place machinery in her which will drive her like a cannon ball downriver. The boat is to be supplied with three 100 horse power engines, 10 inch cylinders, 8 foot stroke, will have a 12 1/2 foot wheel, 11 1/2 foot buckets, 20 inch stroke. Mr. Kilgore will use this boat for touring purposes principally, but designs customizing places so also as she will be fitted up in elegant style and suitable for pleasure when she is completed. Mr. Kilgore will invite quite a number of his friends to make the trial trip on her and also in the future career, will be used by friends to make pleasant outings with him. It will be about the latter part of August before the boat is completed and ready for service, with steam up and feel aboard, she will draw about twenty inches and if she don't show her "heels" to the best of them when turned loose every body will be greatly deceived, for she bears all the marks of a thoroughbred and will prove a great credit to Paducah mechanics. The Messrs. Sheldon Bros. of this city are building the machinery.

THE FIRST VIEW OF THE EXPOSITION.

The most impressive view is from the Triumphant Bridge just at dusk. The great towers of the bridge make a dignified, stately approach to the court with its play of light and shadow, the fountains and warm colors, the fountain, and the great electric tower as a climax to it all. You have hardly realized the scene as it appears in the dusk, when on the row of posts tiny dots of light appear in clusters, like little pink buds in a meadow. You become greatly aware of similar pink buds on the tower—apparently millions of them, and on either side they outline all the buildings—in rows about the panels on the domes, under arches, over windows, everywhere. The buildings themselves seem for an instant to become invisible, and you see only their outlines marked in these tiny dots of fire. And the court seems larger than it was by sunlight, for you seem to see a whole city of towers and domes, and caves and doors, outlined in sparks. Then the pink points grow brighter and change their hue, and in another moment the full illumination bursts forth, and the whole court becomes luminous with a soft brilliancy that does not tire the eye. And it is a new kind of brilliancy. You are face to face with the most magnificent and artistic nocturnal scene that man has ever made. It is an effect so novel and so gentle in its glow that you think of fairyland, not a fairy land of fables, but the fairyland that you once believed in.

MARKET REPORT

Today's Quotations.
(Market quotations furnished by the Union & A. Co. of the Paducah Commission company, 113 South Third street, received over their special wire in the Chicago board at 11 a. m. and New York cotton and stock exchange. Telephone 493.)

THE RIVER NEWS

Castro, 12.7, fall.
Chattanooga, 3.7, fall.
Cincinnati, 11.1, fall.
Evansville, 6.7, fall.
Florence, 2.0, rise.
Louisville, 5.9, stand.
Mt. Carmel, 1.4, fall.
Nashville, 2.1, fall.
Paducah, 3.3, fall.
Pittsburg, 3.6, fall.
St. Louis, 10.5, rise.

Observations taken at 7 a. m. River 3.3 on the gauge, a fall of .3 in last 24 hours. Wind northeast, very light breeze. Weather clear and hot. Temperature 85. Fall, Observer.

The City of Toledo left for Cincinnati with a big trip at 12:30 today.

The J. R. Richardson and Dunbar from Nashville arrived this morning. The Richardson left up here and the Dunbar went on to Louisville.

Mr. Henry Potter received a telegram yesterday from Captain Peter Dolan stating that the Peter Hantz was sunk in Green river yesterday. No particulars.

Louisville Post of yesterday says S. S. Bessler, in charge of the river government reports, is gathering information from rivermen as to the best location to place a government gauge on some of the main tributaries of the Ohio river. Mr. Bessler, in speaking of the places of the gauges, said that he had already decided to place one or more on the Big Sandy, Green river and the Ganley rivers.

The Bettie Owen has been shut out from Owen's landing in Illinois, just opposite the city on account of the log bar in front of the landing. The bar stands in or 20 feet above the surface of the water.

The Dick Fowler cleared for Cairo this morning at 8:15 with a good trip both in freight and passengers.

The City of Memphis is due tomorrow from Tennessee river for St. Louis.

The Morning Star with 150 Louisville people visited Evansville and Henderson last Sunday.

The City of Clifton leaves St. Louis tomorrow at 5 p. m. for Tennessee river.

The H. W. Hottel left here this morning for Clarksville, where she connects with the Holt for Nashville.

If we don't have general rains very soon the river will come pretty close to drying up. We are now suffering with the most intense heat and no signs of rain. Yesterday the thermometer went to 110.

The John S. Hopkins from Evansville arrived and departed on return trip today.

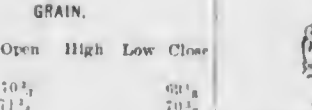

The City of Pittsburg arrived from Cincinnati at 6 p. m. yesterday. She had a good trip for the stage of water, discharged a small lot of freight. While laying at the wharf her calliope rendered quite a number of pieces of music from Dixie to the melody and departed for Memphis at 8 p. m.

The Clyde leaves for Madison tomorrow morning with Major J. H. Ashcraft in command. The Henry Harley will leave for Tennessee river tomorrow at 5 p. m. in place of the Clyde. Captain Jim Till with the crew of the Clyde will take charge.

The Charleston is receiving a big trip for her departure for Clifton. Tennessee at 5 o'clock this afternoon, besides her freight trip she has some twelve or fifteen cabin passengers.

Factor to small boy who was at his apoplexy—'Good—' and I want to tell you something. Small boy—'Not me. I like to be a king. I don't want to be a king.'—King.

Trouble Ahead.

What a third kid.

A girl named Akern, 14, daughter of an Englishman, has just completed her education. She has never missed being present at the school was opened and in completing her 3,451 attendance. It is said to have walked 6,000 miles. She has passed every standard as a student and in the three subjects on first grade during obtained 'excellent' grades in free hand and model, also in the three stages of the specific sciences, literature, domestic economy and physiology, and in no stage in physical geography. She has also obtained 25 other prizes for her work in science, sculpture, drawing, etc.
